exocad

Design new smiles with ease. For cosmetic dentistry, highly esthetic and functional restoration design and implant planning — our software helps you do it all.

DentalCAD®

For **sophisticated restorations**

DentalCAD® is exocad's powerful tool for experts and beginners alike. The software is designed for dental technicians who want to create outstanding dental restorations. From quick volume production to the most complex, customized solutions — *DentalCAD* meets your needs.

ChairsideCAD

For **single-visit restorations**

ChairsideCAD software makes single-visit dentistry easy and open. *ChairsideCAD* supports various indications and integrates with a wide range of intraoral scanners, 3D printers and milling machines. The wizard-guided workflow enables beginners and experts alike to easily design restorations. Share designs with your lab seamlessly for collaboration or production with exocad's integrated communication platform *dentalshare.*

exoplan

For **guided surgery**

exoplan's intuitive workflow guides dental labs, dentists, implant specialists and surgeons from implant planning to surgical guide design and manufacturing. In addition, *exoplan* users can take advantage of seamless integration with *DentalCAD* and *ChairsideCAD* for designing patient restorations.
